Rothgebs Win F.R.C.C. Tourney

Climaxing what many observers consider the most exciting F.R.C.C. Member-Guest Golf Tournament, John Rothgeb calmly rolled in a 10 foot birdie putt on the sixth play-off hole to give his team a victory over Tony Guthrie and his guest Bill Carter Sunday afternoon.

The match was forced into sudden death when both teams finished regulation 36 holes with identical 137 scores. Eddie Rothgeb's birdie attempt on the last hole of regular play caught the edge of the cup but failed to drop.

The Rothgeb team, with the best round of the tournament, a 66 on Saturday, took a one stroke lead, over Guthrie and Carter, into Sunday's final round, however a birdie on the second hole quickly evened the match and a three under par effort by Guthrie and Carter on the front nine put them two up with nine holes to play. The Rothgeb's matched par on the first nine.

Both teams matched par on the first four holes of the back nine but Guthrie and Carter found trouble on fourteen and fifteen taking bogie on each and dropped back into a tie with both teams finishing par, birdie, par.

The teams continued to match par through the first four play-off holes as a gallery gathered to witness the outcome. On the long par-4 fifth hole, Carter and John Rothgeb each had booming drives.

The left-hand hitting Rothgeb pushed his second shot to the left of the green giving Carter an excellent opportunity, but it was not to be as Carter pulled his shot near the sixth tee. Each team took bogie five and they teed it up on six.

Hitting against the wind all players except Carter left themselves with long second shots to the sixth green. Undecided about club selection, John Rothgeb chose a five iron for his 180 yard shot and rifled the ball to within ten feet of the flag. Carter then pulled his approach to the left of the green but made a beautiful chip, the ball coming up about four feet short. After Guthrie missed a twenty-five foot putt for par, Rothgeb rolled in his ten-footer to end the drama.

Also playing in the Championship Flight, Jerry Conner and Lynn Jones took third with 140, followed by James Paulette and Will Chapman (144), Doug Marshall and Wayne Proffitt (145), Floyd Williams and Dennis Davis (147), G. H. Jamerson and Phillip Lucado (151) and J. D. Crance and Gene Cobb (153).

Jerry Burke and Bootie Pilcher captured the first flight with 149, second place went to Doug Mitchell and Rick Powell (150) and Buster Jackson and Skeeter Fore took third with (150).

Second flight winners were Dick Bass and Harold Locke (154) followed by Jimmy Mayberry and Bill Boswell (155) and Monte Mays and Keith Pennington (156).

Taking the honors in the third flight were Tommy Bass and Sam Page (158), Robert Hamlett and Wayne Brown (159) and Martin Webb and Hank Webb (161).

Winners in the fourth flight were Lee West and Ray West (167), with Fred Weakley and D. McCraw second at (171) and Ken Milton and Herbert Bailey third at (171).

Additional prizes donated by local merchants rewarded players for good shots. Steve Lawson and Bill Carter received putters for hitting the longest drives while Buddy Carson and Wayne Proffitt received a similar prize for shots closest-to-the-pin on the Par 3.

Other prizes for good second shots went to: John Rothgeb, Hole No. 2, a 50' vinyl garden hose donated by Coleman's Feed Store and a bottle of Turtle Wax donated by Oakville Farm Supply. Joe Foxwell, Hole No. 2, a folding lawn chair and 2 gallons of Prestone Anti-Freeze, donated by Friends. Hight Dotson, Hole No. 8, a folding chaise lounge donated by White's Auto Store. MAKING FAMILY LIFE MORE FUN

Stretching Vacation Budget

If you must trim vacation spending this year, don't let your inexpensive holiday deteriorate into an unexciting one.

Friends, neighbors and the local library can tell you about nearby places to visit. Make a list of things that your family likes to do; then, map out an agenda.

If water sports are to be at the heart of your vacation, discover new activities for the whole family to enjoy. One new way with water play is the AquaScooter—a water vehicle that pulls up to seven swimmers under the water or on the surface. With a 2-hp engine that moves up to 5 mph, the AquaScooter is safe and simple enough for children—and half a gallon of fuel will power it for three hours. If the driver lets go, the AquaScooter circles until control is regained; if it is shut off underwater, it floats; and it can even be started while completely submerged. For information contact AquaScooter, Inc., Springfield, New Jersey.

Don't be a wet blanket just because you have to tighten your vacation budget. Seek out new ways of having fun—and then enjoy!

On July 4, 1956, 1.23 inches of rain fell in one minute at Unionvale, Maryland.

During the past decade, college costs approximately doubled.

ONCE YOUR CHILD CAN SAY "HELP," TEACH HIM HOW TO GET IT.

Dialing "O" for the operator in an emergency is so simple even a child can do it.

But you'd be surprised how many children don't know how—only because they haven't been taught.

That's why it's important to teach your children this emergency procedure as soon as they can understand it.

Dialing "O" is fast because there's only one digit to dial.

Dialing "O" is easy because it can be used for any emergency situation.

And dialing "O" alerts an operator who's specially trained to handle an emergency. That's particularly important if a younger child becomes confused or panics.

Older children can be taught to find the emergency service number in the telephone directory. And, of course, make sure all your children know that phones aren't toys and shouldn't be played with.

Any child can get involved in an emergency.

What's important is that they know how to get out of it.

More Temporary Workers in County Needed By U.S. Census Bureau

The U. S. Census Bureau has issued another call for Appomattox Campbell, Prince Edward, Buckingham, Charlotte, and Nelson County residents to apply for temporary jobs which are now open.

The work involves compiling lists of addresses in the county for use during the 1980 census.

Temporary census worker usually work three to four weeks each and will be paid on a per-address collected basis. For an eight-hour day, the average worker will earn $27 to $30 per day plus 17c per mile for any driving done in a private vehicle. Applicants for the jobs must be 18 years old or over, a U. S. citizen, and pass a written test.

The work involves driving or walking to compile lists of addresses of each dwelling unit in designated areas of the county. These address lists will play a vital role in taking the 1980 census. They will be used to produce mailing labels for the census questionnaires to be sent to each household in America on March 28, 1980. Then, a few weeks following the April 1 Census Day, census officials will use the address lists to determine which households have not returned their completed questionnaires. Census takers must then make personal visits to each non-responding household to collect the information required on the census form.

The 1979 address collection activity in the county is part of a Census Bureau program involving 35,000 temporary workers nationwide to compile lists containing approximately 30 million addresses. Another 50 million addresses have been purchased form commercial mailing list companies.

The Census Bureau is an equal opportunity employer.

County residents interested in applying for the temporary census jobs should contact: U. S. Census Prelist Office, 2819 Parham Road, First Floor, Richmond, Va. 23229. Telephone (804) 782-2607.
